Great Attractions. We commenced last week, as the reader well knows, the great Tale of T. S. ARTHUR, "Insubordination, or the Shoemakor's Daughter."-The story is deepeoing this week, into als rbing interest. No one reading the first, will omit read-

This tale will occupy the paper for several weeks, and will be followed by an O iginal Tale from the pen of our regular contributor, Mrs. BOSTWICK. We print a few extra copies containing the com

We design that the Olfio Star as a family newspaper, or fire side compenion, shall not be an passed. The beautiful lines on the first page of to day's paper, from the pen of our regular contributor, will be admired.

School Examination.

The Seminary of Natural Science in this vil lage, closed its Fall Session last week, with an exnumination-the Male Department on Friday, the Femile Department on Saturday. The examina tion of the former, in charge of Mr. C. P. HART, Principal, was highly creditable to teacher and pupals, under all the circumstances, especially when we consider that a majority of the pup is had been in attendance for less than half the Session.

The Female Department is under the sole and exclusive charge and instruction of Miss Amy S A-PENWALL Vice Principal. Many of the pupi's in this Department had been in attendance only a part of the Session. The examination was very satisfactory, showing on the part of the teacher a ted themselves very handsomely indeed, showing an intelligent understanding of the ground over which they had some, thorough training and highly commendable proficiency. We are well persuaded g'a' fied with the examination of this Department

We would de leately suggest (so e sily are young would be better to leave, without interference the entire development of the proficiency and attainments of her popula to the Vice Principal, who, from her intimate knowledge of each, is best qual-

In accordance with our usual custom, we issued the document [the President's Message] in adsince of the other offices, and without permitting it to encourb apon the space in our regular issue. -Portage County Whig.

The Message was issued in the Daily papers of Cleveland late in the afternoon of Monday Dec. 6. The editor of the Whiz procured a helf-sheet of the Daily Herald, containing the message, with which to serve his subscribers. He reached here with his half sheets about 10 o'cleck in the evening, in the Accommodation train, which train also brought us sundry copies of the message.

The Whig, between ten o'clock and midnight. "issued the document in advance of the other officos." by sending his carrier through the village to stick his half-sheets of the Cleveland Herald into the door-handles of the houses of the sleeping citi-

Thus, in spite of Cleveland Herald half-sheets. steam printing presses and rail road expresses, the Star served the Revenue public, and the Portage Cou ty public, with the message, neck and ne-k with that enterprising printer who rejuices in the editorship of the Portige County Whig.

Besides, the Message was so imperfect and defective in the Herald half slicets, as to be abso lutely a disgrace to the issue of any office. The Herald felt this, and on Tuesday re-inserted the beretofore. The Musical Department will still be Message corrected, admitting itself to be much mortified at the mangled manner in which it first

Wonder if the Whig will re-issue a corrected copy of this important document, or must its patrons content themselves with an imperfect, mangled, uniatelligible, worthless copy, or what would be better, borrow the Ohio Star of their neighbors in order to have the satisfaction of reading a cor-

Dr. Hooffand's CELEBRATED GERMAN BITTERS,

DR. C. M. JACKSON, AT THE GERMAN MEDICINE STORE, 120. Arch street, Philadelphia, Their power over the above diseases is not excelled —if equalled—by any other preparation in the United States, as the cures attest, in many cases after shilful

READ AND BE CONVINCED!!

The editor said, Dec 22nd—"Boston Bee." Dr. Hoofland's Celebrated German Bitters, for the cute of Liver Complaint Jaundice, Dyspepsia Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been sed by thousands and a friend at our elbow says be has himself received an effectual and permanent cure of Liver Complaint, from the use of this remedy. We are convinced that, in the use of these Bitters. ent constantly gams strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell and can be used by persons with the most delicate stomachs with safety, nuder any circumstances. We are smalling from experience, and to the afflicted, we

"Scott's Weekly," one of the best Literary papers published, said Aug. 25—
"Dr. Heotand's German Bitters, manufactured by Dr. Jackson are now recommended by some of the most preminent members of the faculty as an article of muc. efficiely meases of female weakness. As such is the case we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advanta-geous to their health as we know from experience, the salutary effect they have upon weak systems." The Hon, C. D. Hineline Mayor of the city of Cam

den N. J., says:"Hoffland's German Bittens,-We have a many lattering notices of this medicine, and the source from which they came, induced us to make inquiry respecting its merits. From inquiry we were persuaded to us it and must say we found it specific in its action upon diseases of the Liver and diges live organs, and the pow-erful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

If this medicine was more generally used, we are sat
isfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy ndition and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should in fact, be in every family. No other medicine can produce such exidences of merit." Evidence upon evidence has been received (like the

oregoing) from all sections of the Union, the last three

years and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular

Physicians of Philadelphia, than all other nostrups combined the fact that can easily be established, and

fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspersia no one can dovbt after using it as directed. It ac's specifically upon the stomach and Liver—it is preferable to calomel in all hillious diseases—the effect is immediate. They can be administered to female or infant, with safety and reliable benefit at any time. infant, with safety and reliable benefit at any time.
